IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of: G. E. Morris Husbands
John P. Yardley
Eric A. Muth

Serial No.: 545,701

Group Art Unit: 123

Filed: October 26, 1983

For: Phenethylamine Derivatives

Honorable Commissioner of
Patents and Trademarks
Washington, DC 20231

INFORMATION DISCLOSURE STATEMENT UNDER RULE 97

Sir:

With respect to the subject matter of the above-identified application, in addition to the references cited in the specification, applicants are aware of the following references which are deemed material to the examination of the invention claimed:

Shetty et al., U.S. 3,974,157, August 10, 1976, discloses 1-(aminoalkyl)-2-aryl-cyclohexanol derivatives as analgesics, local anesthetics and anti-arrhythmics.

Yardley et al., U.S. 3,928,626; December 23, 1975, discloses 2-(α -dialkylamino-benzyl)cyclohexanol derivatives as analgesics.

Clarke, U.S. 3,132,179, May 5, 1964, discloses phenylisopropylamines containing a β^2 -alkoxy substituent as local anesthetics.

Suh et al., U.S. 3,847,950. November 12, 1974, discloses 3,4-methylene-dioxyphenylethylamine anti-Parkinson agents.

Lednicer, U.S. 3,979,444, September 7, 1976, discloses 4-hydroxymethyl-4-aryl-cyclohexylamine derivatives as tranquilizers and hypotensives.

Marxer, U.S. 3,758,527, September 11, 1973, discloses hydroxy substituted cycloalkylalkylamines as antimicrobial agents.

Muller, U.S. 4,269,788, May 26, 1981, discloses cyclohexadiene derivatives as analgesics.

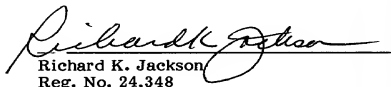

Canadian Patent 737,473, June 28, 1966, discloses a group of analgesic phenol ethers.

Maillard et al., Bull. Soc. Chim. France (1976) No. 6, pages 2110-2116, discloses on page 2112, compound 31 which is 1-(p-methoxyphenyl, amino-methyl)cyclohexanol.

Kvam, Clinical Therapeutics, 2 Suppl. B (1976), pages 1-12 discloses the structure of Nefopam, Diphenhydramine and Orphenadrine and their analgesic properties.

Copies of the above cited references are enclosed.

Respectfully submitted,

Richard K. Jackson
